Creators love us

I am a doctor by profession and was looking for options to train fitness coaches through conducting online webinars.

Rigi was an all-in-one solution for me with their paid Zoom webinars feature. Their paid webinars provided the security I needed and made sure that only authenticated participants enter it. Rigi also made the Zoom recordings easily available for future use. Payment collection was also a big relief with multiple, secure payment options for attendees to pay and join my webinars.

Dr. Prashant

I've been a Yoga instructor for 3 years and my earnings came strictly from offline consultations and workshops. Rigi enabled me to take my workshops online through their paid Zoom workshops feature. I also love their enthusiastic support team that readily resolved any issues or difficulties I had, which is one of the main reasons I stuck with the platform.

Pooja, Yoga Coach

Before joining Rigi as a creator, I used to conduct only offline Yoga workshops or freely share tips on Instagram Lives for my community. I didn't explore the possibility of paid workshops at the time, considering the difficulty of manually managing it. Rigi seamlessly resolved this issue with their paid Zoom webinar feature where I could conduct my workshops in a pay-to-join model. The process of attendee management and payment collection is completely automated and allows me to simply focus on teaching students!

Himalayan Yogi, Yoga Coach

Content creation is hard enough, let us solve monetization for you
